TRIBUTE TO MICHAEL GUTOWSKI

Mr. JEFFORDS. Mr. President, I want to take a moment to remark on the passing of a valued friend of the U.S. Senate, Michael Gutowski, a specialist in private health insurance issues at the General Accounting Office. Michael died suddenly and unexpectedly on September 23 at the age of 53. He was stricken during a meeting with Labor Department officials while gathering information for a report on the implementation of the Health Insurance Portability and Accountability Act that I requested.

Over the past 10 years, Michael directed a remarkable series of studies, almost 50 in all. Many focused on gaps in private health insurance coverage, gaps that make affordable coverage under reasonable terms unavailable to many groups and individuals. Michael's reports were remarkable in a number of ways. First, they succeeded in keeping the Congress up-to-date on the evolution of the private health insurance market. Second, the reports, while based on thorough and often innovative data collection techniques, were not

just a tabulation of statistics. Michael had a remarkable gift for weaving data into a clear and articulate story, one that was immediately comprehensible and compelling.

During my tenure as chairman, the reports, testimony, and briefings Michael developed for the Labor and Human Resources Committee have consistently informed our deliberations on health care policy. We have benefited from the research he led regarding employer strategies in purchasing health insurance, children's health insurance, the role of the Employee Retirement Income Security Act and State insurance regulation, and the implementation of the Health Insurance Portability and Accountability Act of 1996. In all these areas, he drew on his wide knowledge of the real world insurance marketplace. I know that his contribution to other congressional committees and Members on a diverse range of housing, health policy, economic, and workers compensation issues both at GAO and the Congressional Budget Office have been equally valued. In 1995, Michael received the Assistant Comptroller General's award for studies related to health care reform.

Michael was an economist by training but a humanitarian by heart, warm and generous with an unquenchable sense of humor. Michael was very devoted to his wife Lois, and his children Laura and David. In extending condolences to his family, I want them and his colleagues at the General Accounting Office to know that we, too, in the Senate will miss him.

Mr. President, I ask unanimous consent that a list of GAO reports by Michael Gutowski be placed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:
